COOKIES POLICY

Like many Web sites, we use "Cookies," which are data files placed on a Device when it is used to visit the Sites to facilitate site navigation and to personalize your experience, including tailoring advertisements. Cookies may also be used to associate you with social networking sites like Facebook and Twitter and, if you so choose, enable interaction between your activities on the Sites and your activities on such social networking sites. We also use cookies for "Refer a friend" programs or reward offers that you may participate in. We use cookies to track the account sending the referral and to track whether the "friend" registers or makes a purchase so that the referrer can receive its reward or offer. We, or our vendors, may place cookies or similar files on your Device for security purposes, to facilitate site navigation and to personalize your experience while visiting our Sites (such as allowing us to select which ads or offers are most likely to appeal to you, based on your interests, preferences, location, or demographic information). If you would prefer not to accept cookies, you can change your browser settings to notify you when you receive a cookie, which lets you choose whether or not to accept it; or set your browser to automatically not accept any cookies. However, please be aware that some features and services on our Sites may not work properly because we may not be able to recognize and associate you with your account. In addition, the offers we provide when you visit us may not be as relevant to you or tailored to your interests.

We or our partners may also use Flash cookies (also known as Local Stored Objects) or other similar technologies. A Flash cookie is a small data file placed on a computer using Adobe Flash or similar technology that may be built into your computer or downloaded or installed by you to your computer. We use these technologies to personalize and enhance your online experience, facilitate processes, and personalize and store your settings. Flash cookies may help our website visitors to, for example, set volume preference associated with a video experience, play games and perform surveys. They help us improve our Sites by measuring which areas are of greatest interest to customers. They may be recognized by other sites or by our marketing or business partners. Flash cookies are different from browser cookies and the cookie management tools provided by your browser may not remove Flash cookies. Visit

http://www.macromedia.com/support/documentation/en/flashplayer/help/settings_manager.html to learn how to manage privacy and storage settings for Flash cookies. If you disable Flash cookies or other similar technologies, please be aware that you may not have access to certain features and services that make your online experience more efficient and enjoyable.

Pixel Tags or Web Beacons: We also use web beacons or pixel tags, which are transparent graphic images placed on a web page or in an email and indicate that a page or email has been viewed or tell your browser to get content from another server. These may provide confirmation to us when you open an email from us.

YOUR PRIVACY RIGHTS, CHOICE AND ACCESS

You may direct us not to share your Personal Information with third parties, not to use your Personal Information to provide you with information or offers, or not to send you newsletters, e-mails or other communications by: (i) modifying your registered user information on the Sites; (ii) calling 1-800-BODYSHOP; or (iii) following the removal instructions in the communication that you receive. If you wish to modify, verify, correct, delete, or update any of your Personal Information collected through the Sites, you may edit your profile preferences or contact us at the above number, subject to applicable law. In accordance with our routine recordkeeping, we may delete certain records that contain Personal Information you have submitted through the Sites. We are under no obligation to store such Personal Information indefinitely and disclaim any liability arising out of, or related to, the destruction of such Personal Information. In addition, you should be aware that it is not always possible to completely remove or delete all of your information from our databases without some residual data because of backups and other reasons. We will retain your information (including geo-location data) for as long as your account is active or as needed to provide you services. If you wish to cancel your account or request that we no longer use your information to provide you services, contact us by calling 1-800-BODYSHOP. We will retain and use your information as necessary to comply with our legal obligations, resolve disputes, and enforce our agreements. We do not control certain privacy settings and preferences maintained by social media companies like Facebook and Twitter. If you wish to make changes to those settings and preferences, you may do so by visiting the settings page of the appropriate social media site.

SOCIAL MEDIA

We maintain a social media presence, such as a Facebook page, an Instagram page and a Twitter feed. You can interact with us through social media, such as by entering our contests, posting content, sharing material from our Sites, and using our social media plug-ins. When you interact with us using social media, we may receive information such as your user ID, your profile picture, photos you post, and similar information, which is often determined by your privacy settings at the relevant social media sites. We may use the information for the same types of purposes we describe throughout this Privacy Policy. Your use of social media sites is primarily governed by the site operators' privacy policies and terms of service, and the information you share with us and with others is largely controlled by the privacy settings you have established at those sites.

NETWORK ADVERTISING

The Sites license technology to serve advertisements on its own Sites and across the Internet. In addition, the Sites may use third party network advertisers to serve advertisements and third party analytics vendors to evaluate and provide us with information about the use of the Sites and viewing of our content. We do not share Personal Information with these third parties, but ad network providers, the advertisers, the sponsors, and/or analytics service providers may set and access their own cookies, pixel tags and similar technologies on your Device and they may otherwise collect or have access to information about you, including Usage Information. We and our network advertisers may target advertisements for products and services in which you might be interested based on your visits to both the Sites and other web sites. We may use a variety of companies to serve advertisements. If you prefer to not receive targeted advertising, you can opt out of certain network advertising programs through the Network Advertising Initiative (NAI) Opt-Out Page: http://www.networkadvertising.org/managing/opt_out.asp.

Please note that even if you choose to remove your information (opt out), you will still see advertisements while you are browsing online. However, the advertisements you see may be less relevant to you and your interests. Additionally, many network advertising programs allow you to view and manage the interest categories they have compiled from your online browsing activities. These interest categories help determine the types of targeted advertisements you may receive. The NAI Opt-Out Page provides a tool that identifies its member companies that have cookies on your browser and provides links to those companies. Additional information regarding online advertising is available at: <https://www.networkadvertising.org/understanding-online-advertising/what-are-my-options> or www.aboutads.info/choices
