How to become an Independent Consultant

Would you like to be a part of a group of people who believe in positive change? Who work for what they believe in? Selling beauty products that can help the planet?

If so, we'd love you to join our collective. By spreading the word about The Body Shop products, you won't just be helping to make a positive difference, you'll be earning money too.

You'll be in charge of how you do things, but we'll give you lots of support. And you'll be able to get help from The Body Shop At Home™ collective too.

It's like you've got your own business, but with hardly any of the costs, such as registering your business or paying for your premises. You buy your Kit brimming full of products for you to use and sell, and set up your payment account to pile up the pennies every time you sell a product.

So come on, join us. Together, we can support each other, help communities and change the world.

We believe in doing things properly, with fairness and equality. If you are ever worried about something to do with The Body Shop, or if anyone ever puts you under pressure, please call us on 1-800-263-9746.

“Sharing amazing products, spreading the word about the amazing company and core values and meeting new people all while making money. And I love working with so many passionate people...”

Dame Anita Roddick,
founder of The Body Shop

FROM ANITA TO AN ARMY OF CHANGEMAKERS

We stand on the shoulders of a true trailblazer, Dame Anita Roddick: the woman whose passion for doing good changed business. Forever. Because Anita saw business not only as a fun and flexible way to earn money, but also as a way to change the world.

Thanks to Anita, the world began to pay more and more attention to animal rights, human rights, Fair Trade and protection of the environment.

We like to think we're Anita's Army, fighting for a fairer and more beautiful world. Business should be simple and fair, and open to everyone. And we will always help each other overcome the hurdles to be better, stronger and more successful.

“The business of business should not be about money, it should be about responsibility. It should be about public good, not private greed.”

Dame Anita Roddick

MORE THAN JUST A BEAUTY BRAND

From skincare to haircare, our products are designed to make you feel good. But they do good too, helping communities around the world, while having a minimal impact on the planet.

You can find anything from hemp hand protectors to coconut nourishing body butters. All of our products are made with natural ingredients. We aim to use sustainably sourced, natural ingredients and ingredients of natural origin where we can. We try to use environmentally friendly, synthetic ingredients too.

We ask independent experts to check all our products too. They make sure that the products are safe, deliver real benefits to communities and don't harm the environment.

“I absolutely love The Body Shop products and how clean and ethically sourced they are. I have fallen in love with the entire movement and what we stand for, since I have joined. Each piece of the business is beautiful and stands for human right, people, and the environment”

FOR YOURSELF NEVER BY YOURSELF

We support, share and help one another to develop our businesses. And to make a positive difference to the planet.

We'll help you at any and every stage of your journey. For example, as you're starting out, we'll give you advice on how to use social media to spread the word, like showing you how to promote the products in your Kit. Your mentor will work closely with you during those first few months to help you get started. And, no matter how much your business grows or how successful you become, you'll always be able to call on more support if you need it.

As you sell, you'll be rewarded. Not just with earnings, but with incentives like the chance to add more products to your Kit, or savings on The Body Shop products. It's all structured, so you know exactly where you stand.
